Subject: [WARNING: MESSAGE ENCRYPTED]RE: Comanche Treatment System Installation Status
Date: Thursday, March 4, 2021 2:56:42 PM
Attachments: [Comanche GW and Treatment System Update 20210304 slides.pdf](#)

Hi Linda, following up on the call today in which we updated EPA on the status of the treatment system installation to replace the function of the existing bottom ash pond at Comanche. As I mentioned, I apologize for not letting you know in advance that we would be providing a brief groundwater update on the call, as I know you would have invited Treasure and Steve. The groundwater update was focused on the pond area to provide context for the rest of our discussion, and we still anticipate a call in the next month or so to provide EPA with a more complete update on the groundwater monitoring. I'll talk with HDR to narrow down the timeframe for that discussion and reach out to you with proposed dates/times. In the interim, I've attached the slides from today for others to see, which includes updates of two cross-sections and results from the first detection monitoring event in January 2021.

Thank you,

Jennifer McCarter, R.E.M.
